

Curriculum K-8

Our students at St. Isidore School experience many different types of media like **drawing** with pencils, colored pencils, ink, and color markers. **Painting** with watercolor, acrylic, and tempera. **Mixed Media** using collage, assemblage, and a combination of media. **Digital** creation using art websites for age appropriate levels.

Art objectives include an appreciation of beauty in the world of art and level appropriate processes for elements of shape, color, pattern, line, perspective, composition, texture and value.

Through art, we gain a true sense of the grandeur, truth and beauty of God's creation.
